01 Company Profile

Established in 2017, Jingshi Technology Co., Ltd. is a high-tech enterprise specializing in intelligent motion control systems, motor drive and power supply technologies. Its headquarters is located in Xihu District, Hangzhou, Zhejiang Province, China, and its production base is situated in Deqing, Huzhou.The company owns a modern factory covering 6,000 square meters and employs over 200 staff members, including a 35-person R&D team dedicated to technological innovation and product optimization. Since its founding, Jingshi Technology has achieved remarkable accomplishments in the fields of smart office solutions, motor drives and fitness equipment, with an outstanding performance particularly in the smart office sector.In 2018, the company independently developed compact, full-voltage and high-power 1/2/3/4-column control systems for smart offices, which have gained extensive recognition from customers thanks to their excellent performance and stability. It sold 3 million sets and 3.5 million sets of smart office control systems in 2024 and 2025 respectively. In 2025, the company simultaneously launched a brushless standing desk drive system, which has won unanimous market acclaim for its robust performance. Boasting strong market competitiveness, the enterprise embraces a promising future for overall development.

Control box

Single motor controller
JSM-000-SA02

Model:JSM-000-SA02

Input:100-240V 50-60Hz,2.5A

Export:24Vdc, each 100VA

Maximum power:150W

Standby Power:0.3W

operating mode:2min ON/18min OFF

Dual Motor Controller
JSM-000-DB12/JSM-000-DA22

Model:JSM-000-DB12/JSM-000-DA22

Input:100-240V 50-60Hz, 5A

Export:32Vdc, each 110VA, total 220VA

Maximum power:350W

Standby Power:0.3W(DA22 0.1W)

operating mode:2min ON/18 min OFF

Three Motor Controller
JSM-000-TA12

Model:JSM-000-TA12

Input:100-240V 50-60Hz, 10.5A

Export:30Vdc, each 3.5A, total 10.5A

Maximum power:450W

Standby Power:0.3W

operating mode:2min ON/18min OFF

Four-motor controller
JSM-000-FA22

Model:JSM-000-FA22

Input:100-240V/50-60Hz/10A

Export:20-26 VDC，each3 A，total12 A 312 W

Maximum power:550W

Standby Power:0.3W

operating mode:2min ON/18min OFF

- nput: 29–35V DC
- Output: max. 24V 4A
- Motor interface: 1 channel output
- 3 memory positions available
- External power adapter
- Max. speed: 30mm/s
- Max. load: 100kg
- With anti-collision rebound function

Brushless single motor

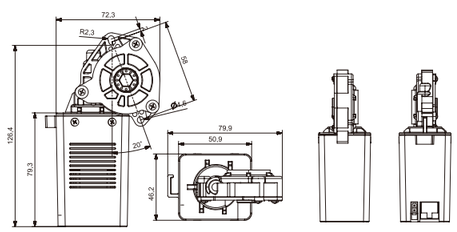

Brushless Motor

- Supports a load capacity of 100 kg with a speed of 38 mm/s
- Small motor size
- High efficiency, energy saving with large output power
- Available in 12V and 29V
- Low system temperature rise
- Easy for matching
- Excellent control performance
- Good EMC and EMI characteristics

Three motor controller

The company attaches great importance to R&D and intellectual property ownership. To meet diverse customer demands, it has established multiple core technical teams focusing on software, hardware, safety certification, and other fields, centered on intelligent motion controller systems.The company' s products possess independent intellectual property rights, patents, and numerous global certifications, including UL, CB, CE, FCC, SAA, KC, and PSE, and are sold to more than 20 countries around the world. In 2019, the company was recognized by customers as one of China' s leading control system solution providers for height-adjustable desks.
